We started this female sale in 2015 and still tough to fathom that was 10 years ago. Feels like yesterday we renovated the sale barn for a winter sale. To all the past female sale patronage we say Thank You, this event is one we look forward to every other December.

Charolais is the word in the cattle feeding industry and what an exciting time it is to be involved in all things BEEF! There has never been a more exciting time in this industry and its laying the foundation for the next few years to come. The feeding industry demands cross bred calves and the char cross calves top the marketplace consistently. Some of the best feedback over the past twelve months with new customers is the price they get for their char cross heifer calves.

Evolution of the Charolais female is on such a rapid pace. As breeders of this white breed we have listened to our customer base and bred accordingly. These females have come full circle in 20 years, we have found the fertility, soundness, size, and efficiency. The calving ease has evolved so much we are sending bulls out on large groups of heifers in the past few years. This great white breed has never been in more of a drivers seat than we are right now. From the youth in the breed to the new breeders looking to get involved. Excitement is contagious and this breed is exciting.

We feel this set of bred heifers is deep from every sire group there is females that will add value. The fundamentals of our breeding philosophy will never change we like them sound and low maintenance! I want these females to go out and produce for 8 -10 years like their dams have done or going to do. We strive to produce bulls, these females are built to do that.

Our great friends the Elder family are involved with us again and we couldn't be happier to have them here. I was always told surround yourself with good people and good thing will happen. These are some of the best people in the breed and have one of the most respected programs in Canada.

Please Join us the night before for some hospitality and socializing in Leicesters bar which is located right beside the Microtel. The night is on us so be our guest and enjoy the food, drinks, and fellowship.

We welcome you to the Ranch on December 7th,

Full sister to the Magnum bull that led off the bull sale to Turnbull Charolais for 75k this spring. This female is a unique breeding female, you want power, mass, and udder type she has those in spades. She is a front end breeding female that will find her way to the donor pen one day. This breed is on such an upswing and when you talk about cattle coming to the forefront of the breed. Her type and kind serve a huge purpose in pursuit of the future herdbull of the breed.

I just cringe when I see the dam to this King Kong female and then think about selling one of her daughters...we shouldn't! She is deadly and her udder is 10/10. Marigold is a female you can build a real nice cow family around they will be powerful, maternal, productive, and easy to handle. The King Kong prodigy are going to write their own story in this breed. They do so many things so well.

King Kong daughter that is thick from front to back. This female is wide in her pins, square hipped, long sided, and plenty of volume. You want one that can raise some front end cattle and look good doing it, she will do just that. She moves out well and comes from one of the most royal cow families in the Charolais World.

Maternal brother JWX 692L

Cecilia cow family is one of the most productive in our program. You combine that with King Kong and you have one of the strongest pedigree female in our program. We have a female sale every other year, for a reason. But when we do we bring out our best. This heifer calf to me can be a cornerstone female in any program. She is the type to crank out bull calves and look damn good at the same time. What will set her apart is her udder type you have combined two cows from here that are as ideal of udder type as we have. Cecilia is going to be soft made her whole life, she can be bred so many ways and be successful. Her Chara dam is also the dam to Lithium who we walk here and sold half privately for late walking rights to Circle 7 at Shaunavon. Cow families on both sides of her pedigree have raised the front end bulls of our program. You want one to build a cow family around this one is a great place to start.

Maternal Brother, Lithium 222L

Dam, JWX 5231E

Jackpot daughter that is built so well from front to back. This female is a truck, wide pinned, moves extremely well, and has so much rib shape to her. She is deep from every angle, square uddered, loaded with maternal in her pedigree, and will go out and produce. Here is where Carbon Copy females shine they know how to raise front end cattle in our breed. We are huge on production around here and ask a lot out of our females on a yearly basis. This is the type of female that thrives in our conditions and will be a leader on the production side.

Hometown is one real attractive Jackpot female, square made, wide based, and balanced. The Jackpot females will be work horses as cows. They will be heavy milking and out produce themselves. Her Carbon Copy dam is a wide bodied cow, that is clean in her lines and sound footed.

Bred LT Patriot 2208 Mar 26,2025 Confirmed to date

June is a real nice Jackpot daughter, really like this pedigree on the Ballyhoo females. They will be a very maternal pedigree that has some power and punch as well. A moderate female that is very complete and from every angle you like the balance she has. This female is strong topped, clean shouldered, strong forerib, and deep quartered. She is bred to the 50k Ransom son that sold this spring, making what is inside her fairly unique.

Gaby will garner a lot of attention on sale day and for good reason. This female is cool from every angle, you take the qualities of Tank and combine them with an International female. The rib shape and mass she possesses is not traditional of Charolais cattle. She bends the pendulum of where the breed is headed, an era of cattle with exponential growth yet attractive in their profile. This female is special in a lot of different areas with a TSI indexing in the 1% range of the breed.

Bred ONL Back Road 35L Apr 3, 2025 Confirmed to date

Knockout is just that, this female has so much good in her from front to back. She is so feminine headed, clean fronted, smooth shouldered, and as long as you will find. Her dam was the feature female in our Volume IV female sale. You want a feminine female that will be a long term producer, she will fit that mold. Her udder type is so strong, this female will be a huge asset. Anybody who follows epds she is one of the most unique numbered females in the breed with a TSI in the top 1%.

Paradise is a true herdbull producer and will be the heaviest milking female in the sale. Her full sister dragged in the heaviest bull calf out of our 2 year olds last year. She also is a a full sister to King Kong who sired 15 bulls this spring that averaged in the 20k range. The dam to this cow in my eyes is one of the top 3 cows in our program. You want one that will raise something impressive this cow will flat out do that. She is as sure shot to me as anything, when you believe in cow families this is exactly what you look for.

Bred JWX Kingston 7159k Mar 31, 2025 Confirmed to date

Martini is one of the leadoff bred females for plenty of good reason, this female is stout. The width of base and pin set on this female is remarkable. Such a square hip on her with an ideal leg set to her. She is setting down a beautiful udder type and comes by it honestly with her dam and granddam. This female is going to crank out some good calves in her lifetime and will be highly productive.

Lexus is a really good breeding tool to me in so many aspects. To me she is kind of the signature WC female we look to produce. I like them to look like soggy cows from the get go, our charolais are very easy to go the other direction in a hurry. Lexus is how I love them, soft ribbed, tidy skulled, wide based, and awesome udder type. You can breed her in so many and be highly successful. Her pedigree to me is what we have been successful with for so many years the likes of Ransom, Downtown, Epic, and old M6 Gridmaker. Those bulls make females, that make the next herdbull. Lexus has the foundation to make the next one in that line.

Sire, Kingston 7159K

We are once again honored for all of us here at Elder Charolais to be invited to the Wilgenbusch Family Volume V Female Sale. Our families have spent years together and will continue too with the upcoming generations. We are so grateful for the opportunity to consign our genetics to their Volume V Sale.

We have worked very diligently to breed a herd where sound, functional, phenotypically correct cows are what we stand behind. We strive to produce females with not only performance, udder structure, and a strong set of feet but also females that can and will produce herd bulls.

We at Elder Charolais are proud to consign these females that we feel represents the best of what we have worked to build.

Elder Family

Elder's Bouijee 550N is a female that checks all the boxes, she's elevated through her front 1/3, deep middled, and correct at the ground. A female that we feel can present herself in the showring or as a front pen donor. Her sire Elder's Lazaro 305L was the High Seller in our 2024 Bull Sale, purchased by Allison Acres in Kentucky. This is your chance to get in on the FIRST Lazaro heifer calf to sell in Canada. Her bottom side needs no introduction as her granddam is SOS Rhonda 11D.

TERMS AND CONDITIONS

TERMS: The terms of the sale are cash or cheque payable immediately after the sale in Canadian funds. The settlements must be made with the sale clerks before cattle will be released. The right of property will not pass until final payment is made.

BIDDING: Each animal will sell to the highest bidder. Bidders unable to attend the sale may phone their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

DISPUTES: Bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the lat bid. The auctioneer's decision is final.

ANNOUNCEMENTS: Announcements made from the auction block will take precedence over printed matter in the catalogue. assume no liability, legal or otherwise for any accidents that occur.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time. All animals left with the seller must be insured.

LIABILITIES: All persons attending the sale do so at their own risk. The seller's assume no liability, legal or otherwise for any accidents that occur.

CERTIFICATE OF REGISTRATION: Each animal will carry papers issued by the appropriate breed association. A certificate of registry duly transferred will be furnished to the buyer after payment has been made.

BREEDER GUARANTEE: Should any bull fourteen months of age or over fail to prove a breeder after being used on cows known to be breeders, the matter shall be reported in writing to the seller within six months following the date or purchase or six months after the bull has reached fourteen months of age. The seller has the right and privilege of six months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

EXCEPTION GUARANTEE: In the case where the animal is subjected to any hormonal or surgical reproductive techniques after the sale, this guarantee shall be null and void.

INSURANCE: Wilgenbusch Charolais offers insurance and it will be available sale day.
