SHARODON

S E C O N D F I F T Y

Message from the CCA

It is an exciting time to be in the cattle business and even better to be in the Charolais breed. The Charolais breed continues to supply the industry with leading proven performance genetics that top the sale barns across the country.

Whether you are looking for a new herd sire to walk your pastures, or a female to start building your own herd or take to the show ring, an Ontario Charolais breeder is the place to go. I encourage you to use this directory to go and tour some of the great Charolais producers' herds from across the province of Ontario, enjoy some of their well-known hospitality, and find the genetics you are looking for.

Shawn Airey
CCA President

Message from the OCA president

On behalf of all Ontario Charolais breeders, I would like to welcome you to our beautiful province, to the farm community within it and to the people who nurture the great Charolais breed in Ontario. I believe it will quickly become apparent that the white and tan Charolais influence can be found in almost every pasture, feedlot and sales barn from corner to corner.

It is our hope that you find this directory informative and helpful in guiding your pursuit of some of the best Charolais genetics that can be found anywhere. We also hope that it leads you to some new fellow cattle enthusiasts and the building of new friendships, some cattle conversations and the gaining of some collaborative wisdom about how to see the beef industry continue to thrive for years to come.

Welcome to the map of the Ontario Charolais world.

Sincerely,
Jim Baker
