MACKS CHAROLAIS

Mack's Charolais and Red Angus

Welcome to the 13th Annual Eastern Select Bull and Female Sale. Our bulls have been developed at home with a Masterfeed bull pellet and forage ration. Our cattle have been on a live vaccination program for over 20 years. We have a nice group of bulls and a select amount of good young females, some already with calves at side. The price of good quality stocker calves have been on a rise since the beginning of the year so don't hesitate to step up for a new herd sire. If you have any questions on any of the bulls or females or would like to view in advance at home give me a call or take a look the Friday and Saturday morning at the Sale Barn. I'd be happy to discuss our genetics and which bull might be most suited for your cow herd. We are pleased to be raising cattle that will work well in the show ring, and in commercial herds. This year our sale is on DLMS so you can watch and bid from home or call one of the consignors or sale staff to help you bid if you are unable to attend in person.

TRIPLE K CHAROLAIS

We would like to welcome you back for another year and thank you for your continued support. This years bulls are sired by my Fifty Shades son I purchased out of the Langstaff Charolais herd and my True North Bull. He has done a great job of passing his calving ease and performance on to this group. They have been fed a silage base ration with a Purina bull ration mixed in, along with free choice hay. These bulls will have had a breeding evaluation and semen test. I also have picked out 4 heifers to add to the sale. They will have been exposed to my new herdsire from March on to the bull from Cedarlea Charolais that I purchased this past spring. The bulls and heifers will have been vaccinated to Express 10, Tasvax and Ivomeced. Bulls will be available for viewing at Hoards Thur/Fri before sale day. If you are unable to attend the sale will also be broadcast on www.DLMS.ca.

Thanks,
Brian, Trina and Family

FOURTHLANE FARMS

Welcome, we appreciate your interest in this year's sale. Fourthlane started out as a commercial herd and has shifted to a 50/50 commercial/Purebred Charolais split. We strive for well put together, functional cattle. Calves are nasal vaccinated after birth with Inforce 3 and revaccinated with BoviShield Gold and Tasvax 8 in the fall with the rest of the cow herd. If you have any questions, want to see more picture or would like to come out to the farm for a look, please feel free to contact us.
