# BONJOUR

Welcome to our annual bull and female sale.

We are once again offering a grounded, genetically-based group of this year's bull calves.

This offering comes from a French cow herd evolved over the past six decades- Included in this sale are five Full French -sired bull calves and another five off Full French cows, three of them being Full French!

Both - the polled and the French genetics represent a variety of bloodlines available to enhance your future calf crops.

They were vaccinated and weight August 28 and weaned September 15 off grass and milk, and are now fed a bullration, hay, oats- and legumesilage.

Whenever you have any questions feel free to call us or drop by at the farm to see the bulls and heifers with the herd in person.

## BOSS AND BUCKAROO

### "Boss" and "Buckaroo"

This past spring two close Charolais friends passed away. Lorne Lakusta "Boss" and Tim Bullick "Buckaroo". Lorne and Tim had both been influential on my ongoing purebred breeding.

From teaming up with Lorne in the 90s on a bull named Buckaroo - sold by Tim, to partnering with Tim in 2005 on a bull named Till's Echo - the introduction of polled Full French genetics to the Valanjou herd.

Twelve years ago we had one of the high selling bulls in Canada: Anjou Pure Power. This past spring I had the pleasure of seeing this bull at Charmark Ranch where he had a strong, positive influence on their herd. Tim was a major player in exposing the great attributes of that legendary Full French sire. I would like to acknowledge the positive changes both of these friends brought to my Charolais herd.
